Re: Phase II WPDES Permit – 2012 Annual Report

Dear Jim:

Please find the following enclosed submittals for our annual report for the reporting period of January 1 - December 31, 2012:

- A resolution from the City Council stating that they have reviewed the content of the annual report is attached.
- The budget and preliminary expenditures for 2012 as well as a budget for our storm water program for 2013.
- Descriptions of the Best Management Practices (BMPs) the City is performing to meet the requirements of this permit. Each BMP has measurable goals and timelines on it, I have summarized the progress made for this reporting period for each BMP and also provided information for the measurable goals.

In addition to the required BMPs, other public education events occurred throughout the year, these include:

- Fish shocking by River Falls High School students, staffed by Kyle Kulow of St. Croix County Land and Water Conservation District (LWCD).
- April 29, 2012: Kristy Treichel had a booth at the St. Croix County Earth Day event, it is estimated that 223 people attended.
- St. Croix County LWCD presented at Greenwood Elementary. A one hour storm "Who Polluted the Kinni."
- Streamflow measurements by RF High School Students, staffed by Kyle Kulow of St. Croix County LWCD.
- Macroinvertebrate sampling by RF High School Students, staffed by Kyle Kulow of St. Croix County LWCD.
- Water Quality Sampling by RF High School Students, staffed by Kyle Kulow of St. Croix County LWCD.
- August 2, 2012: River Falls Municipal Utility Customer Appreciation Event. Kristy had a table with rain barrel information, a pervious pavement demonstration and other storm water information available.
- October 13, 2012: Girl Scouts collected leaves in parks and at school. They also distributed door hangers about water quality.

BMP Description:

UWRF is considered part of the City's MS4 within this permit. The City and UWRF will voluntarily partner together in all 6 of these areas whenever possible. Training events will include both staff when possible and programs will be advertised in both entities as applicable.

Measurable Goals:

- Count number of events the City and UWRF collaborate on.

Timeline / Implementation Schedule:

- City and UWRF will work together annually

Specific Components & Notes (optional):

This BMP is provided to show cooperative work between the two entities, however we feel the City programs alone will meet the General Permit Requirements.

<input type="checkbox"/>	Public participation & involvement	<input checked="" type="checkbox"/>	Post-construction storm water management
<input type="checkbox"/>	Illicit discharge detection & elimination	<input type="checkbox"/>	Pollution prevention/Good housekeeping

BMP Description:

The City has an existing ordinance which includes storm water management as well as construction site erosion and sediment control criteria. This ordinance requires submittal and approval of a grading plan and an erosion and sediment control plan for land disturbing activities. Currently UWRF is exempt from this ordinance, but has voluntarily complied with the requirements. We will be researching ways to bring UWRF under the jurisdiction of this ordinance as part of our MS4 system.

Measurable Goals:

- Number of ponds installed and the number of developed acres served by those ponds.
- Number of storm water management permits issued (sites reviewed).

Timeline / Implementation Schedule:

- In the first year the City will review the ordinance for compliance with WDNR regulations and requirements listed in section 2.4 and 2.5 of the MS4 general permit.
- The City will submit the ordinance and any proposed changes within 18 months of the start date.
- The City will adopt any proposed changes within 24 months of the start date.
- Review and revise ordinance and standards as an ongoing practice.

BMP Description:

The Engineering and Building Inspections Departments currently work together to enforce erosion control practices and regulations. We expect that this arrangement will continue. Currently very little documentation is provided from City inspections and subsequent follow up procedures. The City will develop inspection forms and documentation procedures as part of this BMP. The City will study methods to gain proper maintenance of sites such as bonds, fines, fees, etc.

Measurable Goals:

- Count and record the number of sites inspected annually, as well as recording the number of non-complaint sites compared to the total number of sites.
- Count and record the number of citations and cease & desist orders written annually.

Timeline / Implementation Schedule:

- The City will review the existing program and submit proposed inspection and documentation procedures to the Department within 18 months of the start date.
- The City will request erosion control authority for commercial and public sites over an acre in size from the Department of Commerce within 18 months of the start date.
- The City will implement the proposed procedures within 24 months of the start date.

BMP Description:

The City is developing a maintenance book for public ponds as well as inspection forms that will record the inspection date and results for each inspection performed. The City will also record and track follow-up actions needed, assign a priority level and a timeline for addressing the problems noted in the inspection.

Measurable Goals:

- Public Pond/BMP maintenance book and inspection plan completed.
- Count and record the number of BMPs inspections done annually.
- Ponds maintained in accordance with requirements

Timeline / Implementation Schedule:

- In year one the City will continue work on the public pond/bmp maintenance book, inspection forms and create an inspection schedule for the ponds.
- The City will submit these inspection procedures and forms for public and private facilities to the Department within 18 months of the start date.
- In years 2-5 ponds will be inspected and scheduled for maintenance as needed.

2012 Progress:
Composted Material Collected: 6300 CY
Brush/Trees Collected: 315 CY
Top Soil/Compost Produced: 100 CY
Wood Chips Produced: 315 CY
Note: Some woodchips were left at the compost site for residents to use, the remaining were sent to St. Paul, MN via Environmental Wood Products for use in the bio-generators producing heat/cooling for numerous downtown St. Paul buildings.
Remaining brush and leaves were land spread on City property.
Note: wood chip numbers are low because grinder came very near end of 2011, therefore 2011 number was high and 2012 number is lower. Grider will be coming again in early 2013.
