

**Public Service Commission of Wisconsin**

**RIVER FALLS ELECTRIC UTILITY**

**Non-Standard Meter Service**

Application: The utility has chosen to install wireless advanced meters as standard equipment for all customers. Customers that are provided service under Schedules Rg-1 or Rg-2 and choose not to have a standard wireless advanced meter installed on their premises are subject to this tariff.

Customers electing a non-standard meter shall pay a monthly meter reading charge for each non-standard meter. The utility may only charge a customer one non-standard meter charge for customers with both water and electric services.

Non-Standard Meter Reading Charge: \$24.40

If a customer establishes service at a new location on which a standard meter is installed, and the customer requests non-standard meter service, the utility shall assess the customer a one-time charge, based on actual utility costs, for the installation of a non-standard meter.

If a customer requests initial service at a location where a non-standard meter is installed, the utility may not assess a charge for installing a standard meter. The utility may not charge an existing customer who chooses to convert from a non-standard meter to a standard meter.

Billing: Same as Schedule Rg-1 or Rg-2
