

Homeowner Boulevard Tree Form

The City of River Falls recognizes that it may take multiple years to replace boulevard trees removed due to emerald ash borer (EAB). This form starts the process for homeowners to replace their boulevard tree sooner than the City plans. Homeowners who wish to re-plant a boulevard tree have the option to do so, at their expense. Tree species requested must be on the City of River Falls approved boulevard tree planting list.

No tree can be planted in the City boulevard without prior approval of tree species and location by the City Forester.

Please complete the below information, sign the form, and email the form to bostendorf@rfcity.org or drop off at City Hall - 222 Lewis St, River Falls, WI 54022

Name: _____

Address: _____

Phone: _____

Email: _____

Species of Tree Requested: _____

Requested Boulevard Location: _____

Anticipated Planting Date: _____

I, the homeowner, acknowledge that I have chosen to plant a replacement boulevard tree(s) in the City boulevard due to the removal of Ash trees that were infected with EAB and therefore, am responsible for the cost of tree replacement in its entirety including purchasing, planting, watering, mulching, and/or other site restorations due to excavation.

I understand that the City retains ownership of the boulevard tree as stated in municipal code [Chapter 8.12 - Tree Regulations and Protections](#).

I understand that it is my responsibility to contact Diggers Hotline at least 72 hours in advance of digging at 811 or (800) 242-8511.

Homeowner Name: _____

Homeowner Signature: _____
